CONTRACTOR

And Constructor, House-mover and General Repairer. Pile Driving, Trestle Work and Foundations a specialty. Leave orders at Owens, Mitchell & Co.'s, Second street. 8833m

C. F. ZWEIGART, JR.,

DAILY MEAT MARKET.

Corner of Second and Sutton Streets.

"HELLO!"

MAYSVILLE, SARDIS AND MT. OLIVET TELEPHONE COMPANY.

Messages promptly delivered. Maysville office at Parker & Co.'s livery stable.

JOHN BULL NEXT.

Our Cattle Soon to Go Into Europe Free and Untrammelled.

NO DUTY WILL BE EXACTED.

Secretary Rusk Paves the Way to Another Great Market for Our Stock Raisers. His Reasons for the Hope That is in Him.

NEW YORK, Sept. 19.—American cattle may yet enter Great Britain unrestricted and free from the ten days' quarantine now imposed, necessitating the slaughter of animals within that time after arrival. The abolishment of this quarantine is one of the pet objects of Secretary Rusk's administration. He hopes to see the British embargo on American cattle lifted before many months have passed.

The strict enforcement of the cattle inspection laws, which he was mainly instrumental in having passed, will, the secretary thinks, place our cattle on an equal footing with those shipped from Canada. The secretary is just as earnest in lifting the restrictions in Great Britain as he was in having the German interdiction against American pork removed. The secretary, in an interview, told a Washington correspondent that the working of the new inspection law had already increased the price of American cattle \$18 to \$19 a head.

"It was done in this way," he said. "Formerly the cattle were loaded indiscriminately and were poorly cared for on the trip. In consequence the cargoes were often landed in a crippled and unhealthy condition. The half-starved animals were subjected to the ten days' quarantine, which had the effect of further reducing them in weight, and the price was consequently run down."

"The Canadian cattle had the advantage not so much in the loading and shipping, but in their freedom from detention on the other side. As it is now, a thorough inspection has reduced the possibility of disease to the minimum. The cattle are not only examined carefully, but in the loading of them the greatest care is taken that no injury be done to them. The feeding of the animals on the trip across the ocean is regulated by law, and the result is we can place our cattle on British wharves practically unblemished."

"What steps are being taken to induce Great Britain to do away with her quarantine and allow cattlemen to hold or sell, as they desire?"

"There are no particular steps being taken," said the secretary. "When we can show that pleuro-pneumonia and other contagious diseases are absolutely prevented by our system of inspection then we will be in a position to ask the British government to give our cattle free entrance."

"How soon do you expect to make such a showing?"

"We could do so now, but we want to wait a few months, when we can prove absolutely that our system is perfect. The British are just a little backward in accepting our statements. Since the new regulations have been put in force it was claimed that some pleuro-pneumonia had found its way to Liverpool. We have three expert veterinarians stationed across the water to inspect the American cargoes when they arrive."

"These inspectors denied that there was any pleuro-pneumonia. The British inspectors held that there was. The matter was referred to the Royal Agricultural society, and that eminent body decided that there was no contagion, thus sustaining the verdict of the American inspectors. I do not know whether the quarantine will be lifted or not, but we intend through Minister Lincoln, at the court of St. James, to make the request."

"What advantages have resulted from the new regulation?"

"Advantages," replied the secretary, "that every American cattle dealer will appreciate. When he loads a nice fat steer he can count on receiving \$18 to \$19 more for him than he did under the old system. The care taken in loading the cattle and the proper inspection of their feeding has reduced the death rate per cargo from 16 per cent. to 1 per cent., and it has lessened the cost of insurance from \$10 to \$2 per head. There, you see, it is a great saving. The animal does not lose in flesh as formerly, and all these conditions assist in gaining price, such as I have indicated. Should the restriction that all cattle be killed ten days after landing be removed it would be still further to the advantage of the American shipper."

"Canada has already seen the advantage of an inspection system and I have received several letters from large Canadian shippers asking the privilege of shipping through our ports. They can ship through our ports if they like, but I cannot give their cargoes a certificate of inspection. The fact that our meats are free from disease is being appreciated in England, and our beef is in greater demand than that from Canada."

With absolutely free entry for our cattle in Great Britain and the interdiction removed from our pork in Germany and France, the future of the American cattle raiser, according to the secretary, is very bright. Several large shipments of pork have already been made from Chicago to Germany and France.

Horse Thief Captured.

LIZTON, Ind., Sept. 19.—A young man, aged about twenty, was brought here yesterday by Dr. Bronough and a Mr. Evans. He had stolen a horse at New Rose Thursday night and the parties in pursuit found him driving leisurely along south of this place. The owner of the horse used his revolver, lodging a bullet in the fellow's head, near the eyebrow. He was forwarded to Indianapolis to learn the extent of his injuries. This community is overrun with criminals, but it is difficult to bring them to book.

COMMERCE WITH RUSSIA.

Kerosene Oil Shipped from the United States Into the Czar's Country.

SAN FRANCISCO, Sept. 19.—A letter from Calcutta just received states that in one important branch of commerce with Russia it is likely to become a formidable competitor with America. This refers to the export of kerosene oil. India has become a very large consumer of this product, and as little oil has been found in the east the home product amounts to absolutely nothing. Occasional discoveries have been made with promising results. Burmah is said to be rich in oil, but the field has never been developed, and is not likely to even damage either Russian or American trade. But two good oil wells have been reported in India.

Imports of kerosene oil in Russia are now in excess of those from the United States. In the three months of the current official year the total imports from America were 6,600,688 gallons, and from Russia, 7,954,539 gallons. Special facilities have been created in Calcutta for this trade, and it has developed rapidly. The market there is almost entirely run out of California carried fruits. Pears and peaches are not available, and there is no reason why more liberal supplies should not be sent forward from California. Fruit is so difficult to get in India that it is in great demand, and the fruits in tins are very acceptable.

THE SAME OLD STORY.

A Man Fooling With a Gun That He Thought Was Not Loaded.

WILLIMANTIC, Conn., Sept. 18.—A fatal accident occurred here yesterday at the practice shoot of Company G, Putnam, and Company E, Willimantic, Third regiment, Connecticut National Guard. John Peterson, of Company G, picked up a rifle and pointed it at different members of both companies. He was told to put it down but refused, saying it was not loaded. He pointed it at Richard Babbington, aged twenty-five, a private in his company, and pulled the trigger.

A report followed, and the next instant Babbington and William Malone of Company E fell to the ground. Babbington was instantly killed, while Malone was fatally wounded. The bullet, a 42-caliber, had passed through Babbington's heart and out of his back, and struck Malone, who stood ten paces in the rear of him. Malone was also shot through and through, the bullet being found in a board fence thirty paces to the rear. Peterson was immediately arrested. He claims that he did not know the gun was loaded.

Conkling's Brother Dead.

NEW YORK, Sept. 19.—Colonel Frederick A. Conkling, aged about seventy-five years, brother of the late Roscoe Conkling, died at his residence, 27 East Tenth street, at 4 o'clock yesterday afternoon. His death was unexpected although he had been unwell for some time. A cancer of the stomach was the cause of his death. Colonel Conkling served in both houses of the state legislature as a Republican, but during the Greeley campaign he changed his politics, being bitterly opposed to a third term. He retired from active business about ten years ago. He was a member of the Geographical society and frequently delivered lectures before it.

Destructive Prairie Fires.

BISMARCK, N. D., Sept. 19.—A disastrous prairie fire has burned over a large portion of Emmons county, sixty miles south of here. Driven by a strong west wind a sheet of flame as high as house-tops swept over the country from the Missouri river past Williamsport, which place narrowly escaped, and into the southeastern portion of the country. Details are meagre. No mail was received from Williamsport last evening. The loss will be heavy, as a large area of range lands was burned over. Many farmers lost their entire crops and buildings.

Head End Collision.

CHATTANOOGA, Sept. 19.—A fatal head end collision occurred yesterday on the Cincinnati Southern railroad near Harrison, Tenn., caused by the engineer of train No. 16 disobeying orders. Brake-man Stewart, of this city, and Fireman William Weir, of No. 16, were killed outright, and Fireman T. Conner, of train No. 19, was dangerously wounded. Engine No. 535 was completely demolished and several freight cars destroyed.

An Emery Wheel Bursts.

NEW HAVEN, Sept. 19.—William Walsh, aged nineteen, was instantly killed by the bursting of an emery wheel in the shop of G. F. Warner's Manufacturing company. His skull was crushed and three ribs broken by the flying fragments of the wheel. Several others were slightly injured.

Frame Factory Burned.

WILMINGTON, Del., Sept. 19.—The frame factory operated by the Sussex Manufacturing company, at Georgetown, Del., manufacturers of berry crates, wooden plates, etc., was burned last night. Loss, \$8,000; insurance, \$4,000. Six freight cars were also burned.

Fell From a Bridge.

CATLETTSBURG, Ky., Sept. 19.—Fred Nickerson, an employe of the Edgemore Bridge company, fell thirty feet from the N. and W. bridge at Kenova, W. Va., last evening, breaking his left leg in two places, and sustaining other injuries.

Congressman Bullock Ill.

JACKSONVILLE, Fla., Sept. 19.—Congressman Robert Bullock, of the Second congressional district, is dangerously ill at White Sulphur Springs, in this state, and it is probable that he will die.

Run Over and Killed.

CYNTHIANA, Ky., Sept. 19.—Cyrus Jackson, a well known colored man, was run over and killed by the 5 o'clock train on the Kentucky Central railroad yesterday morning.

PUBLIC LAND OPEN.

A Proclamation Issued by the President.

OKLAHOMA FOR SETTLERS.

The Eastern Part of the Territory Will Soon Become Homes for the White Race Where Formerly It Was Occupied by the Indians—Terms by Which It Can Be Obtained.

WASHINGTON, Sept. 19.—The president yesterday issued a proclamation opening the eastern part of the territory of Oklahoma to public settlement at noon, or after, on Tuesday, Sept. 22. The paper is a long document and recites the different treaties with the Indians of the Indian Territory who ceded their lands to the United States. The agreement with the Sac and Fox Indians, provides that the section of land now set apart near their agency for school and farm purposes shall not be subject either to allotment or homestead entry.

Provisions of the Agreement.

The agreement with the Iowa tribe of Indians on the Iowa reservation provides that every member of the tribe shall have an allotment of eighty acres of land upon the reservation, and that a tract of land not exceeding ten acres, including the church and school house and graveyard near the Iowa village shall belong to these Indians in common, and further that the chief of the Iowas may select ten acres additional for use as a reservation.

The citizen band of Pottawstomie Indians ceded all its lands to the government; provided that in all allotments to be made hereafter no person shall have the right to select land in any congressional township of sections sixteen and thirty-six; nor any land set apart for schools, school-farm or religious purposes.

The agreement with the absentee Shawnee Indians includes all their land excepting those in sections sixteen and thirty-six in any congressional township and reserves the land set apart for schools, school-farm and religious purposes.

The proclamation sets forth that each settler on lands shall, before making a final proof and receiving a certificate of entry pay to the United States, in addition to the fees, and within five years from the date of original entry, receive \$1.50 per acre, one-half of which shall be paid within two years; but the rights of honorably discharged Union soldiers and sailors shall not be abridged excepting as to the sum to be paid and all the lands in Oklahoma, the proclamation cites, are declared to be agricultural lands and proof of their non-mineral character shall not be required as a condition precedent to final entry. Each entry shall be in square form as nearly as practicable. The proclamation gives notice that until the lands are opened to settlement no person shall be permitted to enter upon and occupy them, and no person violating the law shall be permitted to enter any of the lands or acquire any rights.

The proclamation then technically describes the land opened to settlement.

A MISER'S FORTUNE.

Dying in Want with a Large Sum of Money in His Possession.

WAUSEON, O., Sept. 19.—John Mason, of this county, was known to every man, woman and child in the vicinity. He was old and infirm, and his dress and mode of living denoted abject poverty. He lived in a fairly good house, and this was thought to be his only possession. He made but few friends, and nothing was known of him, but that he was very poor, having only the bare necessities of life, and not those at times.

Some days ago he became ill, and was nursed by his nephew. Yesterday he died, and before passing away he told his nephew that he had some savings hidden away in the garret of the house. After his death the nephew went to the place designated and found \$8,000 in gold coin of various denominations, \$12,000 in greenbacks and \$10,000 in United States bonds. The nephew is the only heir, and the fortune left by his uncle was taken possession of by him.

A Much Sought Man.

WOOSTER, O., Sept. 19.—Officers captured William Rehm, a farmer, wanted in Wayne, Holmes, Stark and Tuscarawas counties, for obtaining money under false pretenses. He has been in hiding for three months. The fellow managed to get out of the house before the officers reached it and gave them an exciting chase, firing two shots at Ellis, Perman and Brown before he gave up. Rehm is the man who came to town one morning and claimed that his house had been entered by burglars who had carried away \$10,000 in cash. It was known that he had the money, but the story of the robbery was not believed, as he made an assignment of his property on the same day to his brother. An investigation into his affairs developed the fact that he and others had been engaged in a series of wholesale swindles, beating dozens of farmers out of valuable horses and stock, many of the horses being blooded animals.

Another Balloon Accident.

MERIDEN, Conn., Sept. 19.—One of the features of the state fair, now in progress here, has been the balloon ascensions made every afternoon. Professor Northrop has been making the ascensions, but yesterday afternoon he was indisposed, and James Robinson, one of his helpers, agreed to take his place. When the balloon had reached a height of 100 feet, one of the ropes on the trapeze broke and Robinson fell to the ground. It is thought he will die.

CALLED DOWN.

The United States Has Violated Her Behring Sea Agreement With England.

WASHINGTON, Sept. 19.—Sir Julian Pauncefote, the British minister, has officially called the attention of the United States to a violation of terms of the modus vivendi in effect between the two countries, as to the catch of seal in Behring sea. By agreement between the two countries the North American Commercial company, which leases the seal islands of the United States was restricted in their catch of seals this year to 7,500 skins. It is alleged that the Commercial company has exceeded this catch, thus violating the modus vivendi, and the British government has called the United States to account for it.

Special Agent Williams, of the treasury department, has made a special report on this branch of the seal question to the treasury department, and his report has been forwarded to the state department, with a request that its contents be laid before the British minister for transmission to the foreign office in London.

The contents of Agent Williams' report cannot be accurately ascertained, but it is understood that he makes admission that the North American Commercial company has exceeded the limit of catch—7,500 skins—fixed by the modus vivendi. The matter is regarded here as quite important.

NO USE FOR HER.

The Chicago Police Have No Use For Miss Diss Debar.

CHICAGO, Sept. 19.—The identity of "Vera P. Ava," who mysteriously disappeared on the night of Sept. 9, and so sensationally found herself in Cincinnati two days later, has been settled to the entire satisfaction of the police authorities. They firmly believe that the woman is none other than Ann Odella Diss Debar. Lieutenant Shea received yesterday from the editor of The New York Police News a proof of the best portrait of Diss Debar that has ever been printed and a number of officers at once identified the cut as the portrait of "Vera P. Ava," the woman who called to see Chief McClaughey the day before she disappeared.

"I think," said Lieutenant Shea, "that she will now stop her coffin stories and her talk about the Cronin murder and her great charities here in Chicago."

The police do not intend to bring Diss Debar from Cincinnati unless some complaint is entered against her.

RELEASED FROM PRISON.

A Wedding Postponed Awaiting a Governor's Pardon.

NEW ALBANY, Ind., Sept. 19.—A smiling young woman presented herself at the doors of the prison south last evening, bearing a pardon for her father, John Hines, of Madison, who was serving a five years' sentence for attempting to kill Arthur Antle. Hines was a patrolman at Madison, and Antle was a jaying addresses to his daughter.

The father disapproved of the match, and, persuasions failing, went gunning for his proposed son-in-law, and shot him nearly to death. After his conviction and sentence, friends made an effort to secure his pardon, but were unsuccessful. Then the daughter waited upon the governor, accompanied by her betrothed, young Antle, and both together were successful in enlisting executive clemency. The wedding of Antle and Miss Hines has been delayed, awaiting Mr. Hines' release.

CHANGE OF FAITH.

Leading Lutheran Minister Becomes a Presbyterian.

SPRINGFIELD, O., Sept. 19.—Dr. J. B. Helwig, ex-president of Wittenberg college, the leading Lutheran educational institution of the central states, late Prohibition candidate for governor, and until a couple of weeks ago pastor of the First Lutheran church here, has made a complete flop in religious faith, and has gone over to the Presbyterians. The flop causes unbounded surprise. The reason given is the constant tendency of the Lutheran church to Catholicism and ritualistic services. Last night he was elected pastor of the First Presbyterian church, of Urbana, at \$2,000 per year. He received 123 out of 132 votes cast.

Celebrating Mexican Independence.

SAN DIEGO, Cal., Sept. 19.—Mexican independence was celebrated at Riva Juana Wednesday by a fight between a wild bull and a bear. The animals were tied to a stake in the middle of the arena but in the course of the struggles of the animals, the ropes broke and the bear climbed out of the ring and into the space where the spectators were sitting. A panic ensued, during which many women and children were trampled upon and severely injured. A drunken Mexican fired two shots at the bear but he only succeeded in wounding a man in the crowd. The bear was finally secured by Vaqueros.

Died on the Gallows.

EAGLE PASS, Tex., Sept. 19.—Richard H. Duncan, the four-times murderer, expiated his horrible crime on the gallows in the jailyard at 11:26 yesterday morning. The condemned man arose early and after partaking of a light breakfast received his spiritual adviser and the greater part of the time was consumed in prayer. Duncan walked to the scaffold with a firm step and without a show of weakness. He maintained his innocence to the end. The drop fell at 11:26 a. m., and he was pronounced dead at 11:30.

Fire in the Cherokee Strip.

GUTHRIE, O. T., Sept. 19.—Great clouds of smoke are rising in the Cherokee strip, and thousands of acres are being burned over. The cause of the fire is not known, but it is thought that the boomers have commenced their raid and are carrying out their threat to burn the grass off the entire country.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

SATURDAY, SEPTEMBER 19, 1891.

KENTUCKY REPUBLICANS.

The Lexington Leader Trying to Get at the Cause of Their Poor Showing in the Late Contest.

The Lexington Leader is not satisfied with the showing made by Kentucky Republicans at the election in August, and is trying to get at the cause of the trouble. It is publishing letters on the subject from parties throughout the State. In the issue of the 16th, appeared a communication from Mr. W. H. Lynch, of this city. Here is what Mr. Lynch thinks about the matter:

The Leader says it is inclined to believe the Republicans do not really want to carry the State, or else they would take more interest in the election, or it may be they wanted to rebuke some one this year by refusing to vote. There were 750 Republicans in this county that refused to vote at the recent election. If the energy displayed by the drones of the party in their struggle for office had been devoted in a corresponding degree to the election of Major Wood, Kentucky would have been redeemed.

The men who have labored in the past, in and out of season for the party, were coolly ignored when the pie was distributed. The ardor of these soldiers has been cooled, and not one has turned his hand over since to assist the party in getting out the vote.

This will always be the case until the Republican party in Kentucky learns to recognize the men who have fought its battles, and no county in Kentucky can show a higher grade of more zealous Republicans than Mason County, or men who more deserve good treatment at the hands of a Republican administration. They have aided the party with their money, and have stood by its colors in all emergencies. They have been at the front in the councils of the party, both in State and Nation. This class of Republicans have been ignored and men preferred who are either fossils, drones or clippers, and some of them occasionally vote the Democratic ticket. One of them refused to support Colonel Wadsworth for Congress. Another's politics was not known until he was appointed to office, for he was employed by a Democrat and was afraid to express his sentiments.

Mr. Editor, there are plenty of sulkers in the Republican party throughout the State, and a great many in Mason County, and the above are some of the reasons therefor.

WILLIAM H. LYNCH.

In this connection it may be well to add that there were more stay-at-home Democrats in Mason County in August than Republicans. The G. O. P. didn't make the fight interesting enough to bring the Democrats out.

FOSTER PREDICTS FROSTS.

October Will Be a Remarkable Month for Great Extremes of Weather.

St. Joseph, Mo., Sept. 17.—My last letter gave forecasts of the storm wave due to cross the continent from September 14th to 18th, and the remainder of the month will contain much irregular weather, running to extremes. Two storm waves will cross the continent, the first leaving the Pacific coast about September 19th.

Tropical hurricanes may be expected on the Gulf of Mexico and the Atlantic at any time, accompanied by killing frosts on the continent. I expect very destructive frosts not far from October 3rd, which will about put an end to the growth of the cotton and other tender plants north of latitude 30°. I have all the time advised planters and farmers not to sell their cotton and corn at unreasonably low prices, as I have believed that unfavorable weather in September and October would reduce products below the estimates. The corn and cotton crops should, as far as possible, be secured before October 10th, for continuously bad weather may be expected after that date, and both corn and cotton exposed to the weather will be in great danger of injury from the weather. October will be a very remarkable month for great storms and extremes of weather.

W. T. FOSTER.

Approaching Nuptials.

The marriage of Mr. Ernie White and Miss Margaret Pollitt will take place next Tuesday morning at 9 o'clock at the First Baptist Church. The groom to be is a member of the firm of White, Daulton & Roden, tobacco manufacturers, and is the only son of Mr. Charles H. White, of White, Judd & Co. Miss Pollitt is a daughter of Mr. and Mrs. R. H. Pollitt. The couple will be glad to have all their friends present.

SAYS the Climax, of Richmond, Ky.: Dr. C. S. Holton and Miss Jennie McDowell will be married in the First Presbyterian Church, this place, at 11 o'clock next Wednesday. The wedding will be a quiet one, and the couple will proceed to Maysville, the former home of the groom. Dr. Holton is an admirable young man of fine family connections, and good practice in his profession. Miss McDowell is a most elegant young lady, a granddaughter of the late Chief Justice Daniel Breck, and daughter of the late Judge McDowell.

COLORED TEACHERS.

Proceedings of the Mason and Fleming Institute—Who Were Present.

The Mason and Fleming County Teachers' Institute convened Thursday at the colored public school building, this city, with the following teachers enrolled from Maysville and Mason County: M. E. Brookram, Washington; Ella Alexander, Maysville; Nora Gross, Dexter; Lizzie V. Hatfield, Bernard; Mary G. Britton, Maysville; Belle F. Chew, Washington; Florence Taylor, Moransburg; Bettie P. Smith, Maysville; Julia S. Young, Chester; Marilla Taylor, Marshall Station; Charles G. Harris, Maysville; J. W. H. Powell, Washington; H. A. Jones, Minerva; P. McFarland, Helena. The following from Fleming County were present: D. S. Bruce, Flemingsburg; Willie A. Simmons, Flemingsburg; Lugenia Simmons, Flemingsburg; Lula V. Cash, Flemingsburg; Anna Wilson, Nepton; Sarah Howard, Poplar Plains; W. T. Fant, Flemingsburg.

The meeting was opened with reading and prayer by County Superintendent G. W. Blatterman, after which he addressed the institute.

The subject of "Primary Reading" was presented by Miss Florence Taylor, and "Advanced Reading" by D. S. Bruce. A paper on "Writing" was read by Miss Hatfield.

In the afternoon the subjects discussed were as follows: "Composition," by P. McFarland; "Grammar," by C. G. Harris; "Arithmetic," by Miss Simmons, and "Language Lessons," by Miss Howard.

On Friday the institute opened with reading and prayer by the County Superintendent. The following subjects were discussed: "Physiology," by Miss Chew; "History," by Miss Brookram; "Geography," by Miss Britton, and "Civil Government and School Law," by Superintendent Blatterman. There was a general discussion of each topic by the Superintendent and different teachers after the conclusion of the talk by the leader. The discussions were interspersed with music.

At the conclusion of the regular programme, the institute tendered a vote of thanks to the Superintendent for the great interest he manifested in the work of the colored teachers.

The meeting then resolved itself into a teachers' association, with the following officers for the ensuing year:

President—Charles G. Harris.
Vice President—Miss B. F. Chew.
Secretary—Miss L. V. Hatfield.
Treasurer—Miss M. G. Britton.

The meeting adjourned to convene again Saturday, October 3, 1891, in this city.

River News.

The Boston is the Sunday packet for Cincinnati.

The heavy fogs these mornings and the low water are putting the packets behind time.

The New South has been withdrawn from the Pomeroy trade, and the City of Madison takes her place.

Due down: Carrollton and Batchelor this evening at 5 o'clock. Due up: St. Lawrence for Portsmouth at 9 p. m. Bonanza for Pomeroy and Hudson for Pittsburg at midnight.

The Cincinnati Commercial-Gazette says: "Chief Clerk William Bristle, of the Stanley is suffering from a severe cold, contracted last trip by taking an unexpected bath in the river. His boat was backing out from the wharfboat at Higginsport, and he made a flying leap for the deck. At the same instant a party named Frank Heitz attempted to jump from the steamer to the wharfboat. They sprang into the arms of each other and both went down into the rapidly widening breach. The mate of the Stanley was at hand when the mishap occurred, and throwing himself flat on the deck, reached over and sized Mr. Bristle as he came to the surface. The latter in turn caught Heitz, and the human chain thus formed was the means of saving the lives of the two unlucky individuals."

A Minister's Opinion.

Mr. Jacob Connor, a German Baptist minister at Royer's Ford, Montgomery County, Pa., says: "I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, colic and cramp in the stomach. I have never used any medicine with better or more satisfactory results. I consider it one of the best ever used in our family. For sale by Power & Reynolds."

A Matinee by Decca.

The music-loving people of Maysville and Mason County will be glad to learn that Mlle. Decca has consented to give a matinee at Washington Opera House Saturday, September 26th. She received an ovation at her concert the other night and charmed and captivated all. Further announcement will be made next week of the coming matinee.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Pointers for Merchants.

"Advertising is the life of trade, the foundation of success," says an enterprising exchange. "Our observation of the success or failure of men in mercantile business, for 20 years, has more than ever convinced us that the liberal advertiser succeeds where others fail. No large retail house can any longer depend for trade upon its show windows. This is the age of travel and of newspaper reading. The great mass of people learn all about a store, what it contains, its methods of dealing with customers and its prices through reading the daily papers. They know before they start out just where they can get what they want, and they travel directly to that spot from miles around a city. A pretty show window may be the last persuader, so to speak, to induce an intending purchaser to enter a store, but it is the advertisement of bargains that starts him to town to buy, and it is a business house's name and reputation that guide his steps after he leaves the depot or gets off a street car."

"Advertising not only brings success to the individual," continues the exchange quoted from, "but increases the prosperity of the city in which the advertiser does business. A town or city is gauged by shrewd business men by the advertising columns of the newspapers published in it."

He led his girl along the street
Like a tug would tow a cruiser,
He held on to her pretty arm
As if afraid he'd lose her;
But after they were married he
Would sullenly accost her,
And shout, "Oh! come on—hurry up!"
And wish that he had lost her.
—Will S. Hays.

Mrs. J. B. ORR has returned from Lexington. She left her sister, Miss Lillie Sauer, much improved and in a fair way to recover.

MARITAL INFELICITY.

Four Wives and Two Husbands Seeking a Release From Their Marriage Bonds.

Since the August term of the Circuit Court four women and two men, residents of this county, have concluded that "marriage is failure," and are now seeking a legal separation.

Dora White in her suit against Richard White says they were married by 'Squire Beasley at Aberdeen, September 16, 1888. She was a dutiful and affectionate wife, she says, until September, 1890, when defendant drove her from his "house, bed and board, and thereupon abandoned her and went to Lexington, where he has since resided," and has failed to furnish her with any "support, maintenance or provision whatever."

Spencer Hubbard, colored, seeks a divorce from Julia Hubbard. He claims she violated her marriage vows at various times and places, and committed the crime of adultery with one George Thompson. He says she eloped with said Thompson and is now living in adultery with him at Georgetown, Ky. Spencer may be mistaken on this point, as Julia Hubbard filed a suit at Covington a few days since against Spencer Hubbard for divorce on the ground of failure to provide.

Charles W. Staton was married to Ruey Staton in April, 1859, at Georgetown, O. In 1861 he enlisted in the army. Upon his return in January, 1866, a change had come over the dreams of his wife and she refused to live with him any longer. She now lives at Georgetown. He asks for a divorce on the ground of abandonment.

Julia B. Hanning wants a divorce from Charles Hanning. They were married at Aberdeen by 'Squire Beasley, and lived together until August, 1891. They have one child four years of age. She claims that for six months he "habitually behaved towards her in such cruel and inhuman manner as to indicate a settled aversion to her and to destroy permanently her peace and happiness." She claims further that on August 8, 1891, the last day they lived together, he cruelly and inhumanly mistreated her and her child and "made an attempt to take her life with a pistol." She prays for divorce and alimony.

Martha A. Reynolds sues George D. Reynolds for divorce on the ground of cruel treatment, failure to support, and because he has "contracted a confirmed habit of drunkenness." They were married at Newport February 4, 1887, by Rev. W. W. Hall. She sets up in her petition that he has for six months last past behaved towards her "in such cruel and inhuman manner as to indicate a settled aversion to her." She says he has struck and beat her with his fists and has bruised and blackened her eyes; has driven her from home in the night time, and has "pushed and dragged her in violence about the yard of her home," and has "threatened her life until she is in constant dread of him."

Alice Howard and John H. Howard were married at Aberdeen in 1880. After a honeymoon of only three weeks at their home in this county, she says he suddenly left her without any cause or fault on her part and went West, where he remained three months. He never wrote her a line, she states, but he did write to neighbors and said he had abandoned her because he did not love her. He returned, however, and she forgave him and they again went to home-keeping. Afterwards she moved with him to many places to gratify his rambling desires. In September, 1887, he again abandoned her and they have not since lived together. She prays for a divorce, and for the custody of their only child, a daughter.

FOUGHT IN THE FIELD.

Edward Nash and Wall Strode Fall Out and Fight, and Latter's Skull is Fractured.

Yesterday, just before noon, in a tobacco patch on Farrow's Creek, near Mt. Carmel, an altercation occurred between Edward Nash and Wall Strode, which resulted in Strode's being badly used up. He sustained a fractured skull and a broken shoulder, and his injuries are likely to prove fatal.

Nash claims that Strode was coming towards him with an open knife when he seized a tobacco stick and struck him in self defense.

Strode's account is that he had turned from Nash and was suckering tobacco when he received the blow.

Strode was conscious last evening, but was in a precarious condition.

Nash fled and has not yet been arrested. At last accounts he was at the home of his father, Louis D. Nash, in Lewis County.

A Two-Legged Pig.

Mr. John Kirk of Washington, has a curious freak of nature in the shape of a pig that has but two legs. The legs are in front, and it gets about very well, all things considered. Crowds of people visit Mr. Kirk's daily to see the curiosity

"GUILDED GAMBLING" will be the subject of Rev. C. S. Lucas' sermon at the Christian Church to-morrow night at 7:30 o'clock. Preaching also at 11 a. m. All invited.

THE opening of fall and winter millinery at Miss Niland's on the 25th and 26th will surpass any thing ever shown in the millinery line in Maysville. The public cordially invited. 19d5t

THE delegates to the Constitutional convention presented their President, Mr. Clay, an elegant silver water service and a gold-headed cane Thursday as tokens of their esteem.

SERVICES at the M. E. Church to-morrow at 11 a. m. and 7:30 p. m. Subject for sermon at night: "The True Principles of Christian Agnosticism." All cordially invited. Rev. Thomas Hanford, D. D., pastor.

THE melancholy days are coming, but Ballenger's late purchase of fine jewelry is already on hand. If you want anything in the jewelry line, you should always call on him. He keeps the latest novelties. Goods guaranteed.

MISS ETHELENE POYNTZ, daughter of Mr. and Mrs. Nat Poyntz, of Orlando, Fla., who is here on a visit to her grandmother on East Front street, fell down the steps yesterday afternoon and broke one of her arms. She is resting as well as could be expected.

WM. ANDERSON was shot and slightly wounded at Manchester Thursday by his brother-in-law, Ed Gregory. Anderson was formerly Prosecuting Attorney of Adams County. He was recently given sentence to the work house for confirmed drunkenness.

FOR stylish new dress fabrics and trimmings or anything in the dry goods line, call on Nesbitt & Co., Sutton street. Their stock is new and their prices as low as you can find anywhere. They always make it a point to please their customers. See their novel advertisement.

MR. T. W. PINCKARD, superintendent of pumps on the C. and O., was turning over a piece of timber at Coney Island a few days since when some nails caught in the palm of his hand and badly lacerated it. His injuries are very painful, and will interfere with his work for some days.

HAUCKE'S REED AND BRASS BAND has been engaged to accompany the Knights Templar of this city to Cincinnati next Wednesday morning. Captain Tudor asks the members of the band to please attend the meeting next Monday night to make all necessary arrangements.

NOW THAT the elections and fair, racing, &c., are over, and the wheat and tobacco is being handled generally, Frank Owens Hardware Co. are bringing to the front for sale hunting coats (cannass and leather), bird bags, loaded shells, ammunition of all kinds, and sportsmen's wear generally. Call and equip yourself in full for the winter's sport. Prices will suit the purchaser. tf

THE city of Maysville will be within twenty days the best known city in America. The recent fuel gas invention will create more excitement throughout the country than all the oil and gas wells put together. Frank Owens Hardware Company have just received, clean and fresh, their vast stock of guns, imported direct from foreign makers, breech-loaders and muzzle-loading; also American makes, all of which they will sell very low.

PROPOSALS will be received for marking streets and numbering houses in the city of Maysville by the Committee of Internal Improvements until the 25th day of September, 1891. All parties desiring to bid are requested to do so promptly, and leave sealed bids with the Chairman of the committee. Copies of the ordinance will be furnished by the Chairman. The committee reserve the right to reject any and all bids.

s15d5t Thos. M. Wood, Chairman.

SAYS the Manchester Signal: "Dr. J. W. Guthrie, assisted by Dr. W. K. Coleman, of West Union, Dr. H. K. Adamson, of Maysville, and Dr. E. M. Foster, of Louisville Medical College, preformed a very successful operation upon the person of Miss Susan Wilson Tuesday morning, September 15th, for cancer of the breast. The cancer was located upon the left breast and the incision was 8½ inches in length. Miss Wilson stood the operation in excellent shape and is gradually recovering."

CALVIN BRADFORD, Chester Arthur Hayes, Lee Hayes, Calvin Wright and John Wright, of the West End, were arrested yesterday for rocking C. and O. trains. They were down about Broshears' Station when the eastbound express and westbound Huntington accommodation passed and rocked both trains. Two windows were broken in one coach, and Mr. Henry Ort who was seated at an open window was struck on the neck, but was not hurt much. They were arrested by Detective Fitzgerald. This morning they were taken before 'Squire Grant, and on account of their youth were let off with a good lecture by the court, the County Attorney and Hon. W. H. Wadsworth.
